PAID INTERNSHIPS

THE NATURE CONSERVANCY'S GLOBE PROGRAM

thesca.org/globe

SCA is partnering with The Nature Conservancy's *Growing Leaders On Behalf of the Environment* (GLOBE) Program to offer students summer internships working for one of the field's top organizations. If you are interested in starting a career in conservation while gaining hands-on experience with a non-profit environmental leader then GLOBE might be the program for you.

Each year, The Nature Conservancy hires under-graduate students, graduate students or recent graduates to fill over 30 paid positions during a 10-week summer internship. These positions are available throughout the country and provide a unique opportunity to bridge the gap between academics and the real-world conservation work that contribute to the health and sustainability of our world.

GLOBE offers both field and office-based positions in areas including: marketing, law, policy, environmental studies, philanthropy, and government relations.

The purpose of the GLOBE program is to contribute to the diversity, size and effectiveness of the global conservation workforce as a whole and within The Nature Conservancy. SCA's mission to empower the next generation of conservation leaders is helping place the right candidates in these GLOBE program positions.

APPLY NOW:

- Complete a "conservation internship and corps" application at thesca.force.com/members/NewRegistration. Be thorough and include relevant details about classes, jobs, and practical experiences. Professional references required and resume strongly encouraged.
- Add position code **PO-00691143** in the "application code" box or from the "manage my positions" tab.
- Email recruiting@thesca.org with any questions or request for fee waiver.

We recommend applying before Jan 4 2016, but applications are reviewed on a rolling basis until all positions are filled.
